

Tag Less Labels for Garments

Description:

Tag Less Labels are specially made for Brand tags & other information on garments. Tag Less Labels are replacement for woven cloth tags.

Tag Less Labels are transferred on garments like T-Shirts & Under garments etc... by heat transfer machine. Labels are printed on release paper or film, there are various types of labels with different qualities of inks & release papers.

Most common type of transfer are Cold peel usually used for transfer on Under garments & T-Shirts, First coat of Color inks & Second coat of Adhesive.

Tag Less Labels manufactured by G print & graphics are always designed as per specification of customers to provide optimum wash fastness and better processing in transfer. Best quality of inks & release Papers / Films are used for zero rejections in transfers & better life of labels over garments.

"Including Quality you can rely us on brand protection."

Application:

Tag Less Labels are applicable on garments Like T-Shirts , Under garments Etc... Usually printed with brand logos, Sizes, Types of garment & Wash instructions.

Supplying Forms:

Tag Less labels are supplied in sheet [Perforated] Or label form as per desired. Also could be supplied in Roll Form [Single Color Printing].

Eco-friendly inks or normal plastisol inks can be used as per requirements.

Process of labeling:

Tag Less Labels are also called Heat Transfer Labels, are printed with transfer inks on a carrier release film . Labels are normally transferred on garments with the help of heat transfer machine. Labels are placed over the garments on the desired area print side facing cloth. Over it Heat [about 150 °c to 180 °c] & Pressure [as per size of label] is applied for 5 to 20 seconds. Release film is removed from the garment: If it is cold peel release film is peeled after label cools of completely, 100 % of inks is transferred. If it is Hot peel Release film is peeled immediately after transfer, about 90 % ink transferred.
