

Product Data Sheet

Heat Transfer Labels [HTL]

Description:

Heat Transfer Labels manufactured by G prints and graphics are specially made for indication on tennis balls & garments. Labels are transferred on substrate by heat and pressure. Labels are printed on release paper or film, types are selected as per desired results. Most common type of transfer are Cold peel usually used for transfer on garments, & Hot peel transfer for Tennis balls. Also we manufacture tagless labels for garments.

Application:

HTL are applicable on Tennis balls and Garments, tag less labels for under garments & T-shirts.

Supplying Forms:

Heat Transfer Labels for tennis balls are printed on 45gsm transfer paper [hot peel], Supplied in strip form with single or double color printing and Roll Form printed in single color. For textile types of labels changes as per transfer results base materials & colors required, Please contact us for your specific requirements.

Process of labeling:

Heat transfer labels for tennis balls are generally transferred by machines mend for making transfer on tennis balls. Temperature of transfer could be set as per speed and transfer quality needed, trial and error process to set optimum temp for speed and quality. As transfer on tennis balls is a bit tricky job as it has to be transferred on double curved surface, perfect punch has to be made so it could give even pressure on label and tennis ball to create equal contact of label on tennis ball surface. As we could provide you with technical support to help you to transfer labels in better way.

For garment labels could be transferred with machine available in markets made specially made for transfer.
